

# MIREX BEAT TRACKING TASK

**Sebastian Böck**

Department of Computational Perception  
Johannes Kepler University, Linz, Austria  
sebastian.boeck@jku.at

## ABSTRACT

This extended abstract describes the MIREX submission `BeatDetector` and `BeatTracker` for the beat tracking task.

## 1. INTRODUCTION

For the technical details of the systems, please see [1].

## 2. RESULTS

Since newer implementations of the algorithm do not perform better than the older ones, no results are given here. Please refer to the abstracts of the previous years or [1] for results.
